

United Forum decides struggle against the lethargy of BSNL management

A number of demands have been raised before the BSNL management on problems connected with the implementation of the Non-Executive Promotion Policy and the Wage Revision orders. The benefits of the promotion policy are being denied to the workers due to the non-issue of clarifications and also non-acceptance of our demands for issuing of modifications. All our efforts to get the issues settled without delay have not fructified. The management is not understanding the difficulties of the workers due to the non-settlement of certain other issues. Hence, the United Forum meeting which took place on 20.07.2010 has decided to give call for holding demonstrations on 05.08.2010 and dharnas on 12.08.2010. It is requested to immediately convene the United Forum meetings at the Circle and District levels for planning and implementing the calls.
